

LIS 4480 | Final Project Presentation

SOCIAL MEDIA MARKETING

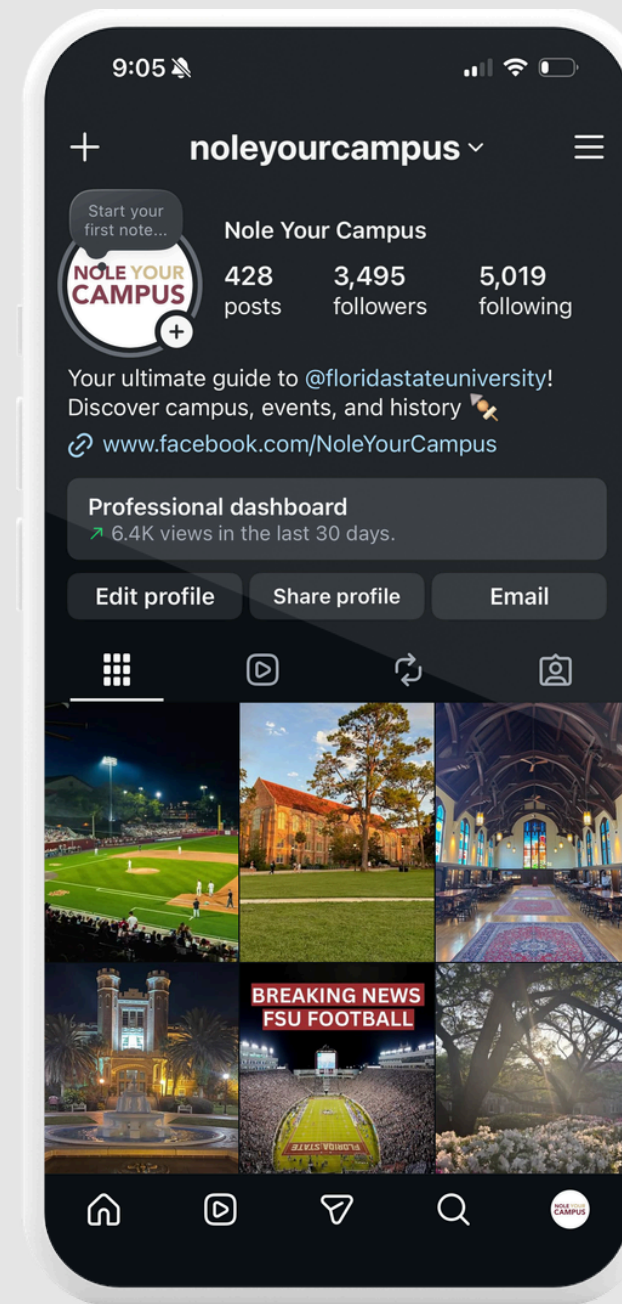

PROJECT GOALS

- Develop and promote info to CCI student groups.
- Execute the plan over the spring semester to reach out to potential members and grow the organization's SM presence.
- Attempt to increase the number of followers as well as likes.
 - Three accounts (AlignFSU – promotes career info, Getinvolved – promotes student and university events, Nole Your Campus – promotes FSU spaces).
- Develop a campaign to raise followers for all three platforms. Post a minimum of 12 posts per platform.

TEAM PERFORMANCE

(continued)

What did the team do well?

Our team communicated well, and each member knew what was expected of them. We message daily in our group chat to give each other updates and check in on one another. From the beginning, each member knew they had to grow their account and make at least 12 posts. Knowing this helped us monitor progress and reach our end goal.

How can the team improve?

Our team could improve by using analytics more intentionally to guide our content strategy, such as identifying which posts performed best and adjusting future content accordingly. We could also experiment with a wider variety of content formats, like reels, interactive posts, or student spotlights, to increase engagement. Additionally, improving consistency in posting and planning content further in advance would help us stay more organized and maximize our impact.

How would you grade yourself? Why?

For the group project, I would rate our work an A-. We successfully managed and created content for three social media accounts, maintained consistent posting, and collaborated to increase engagement within the CCI community. I wouldn't give a full A because we could have used analytics more strategically and experimented with more content formats. Overall, we showed strong teamwork and organization and met our goals effectively.

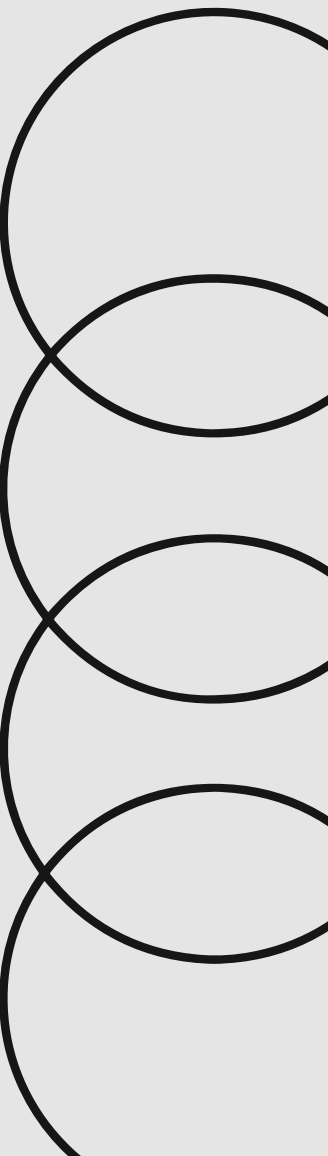

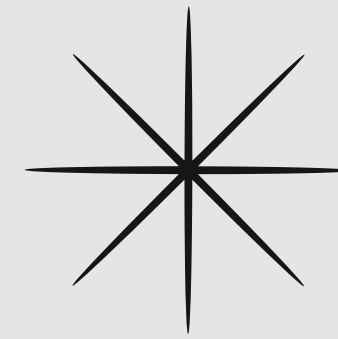

RESULTS TO SHARE

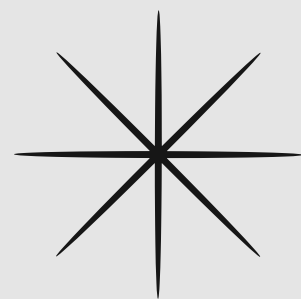

What leadership traits emerged as keys to success?

- Taking initiative in our posts.
- Clear Communication.
- Accountability.
- Self Awareness.

If you had another shot at this, what would you different?

We would plan our posts more in advance and post more consistently on certain days so our followers know which days we are posting.

THANK YOU!

From Co-Leads: Mariana Neri Saporì, Julia Ledo, & Trentt Melton
